

## Dialysis

For those diagnosed with a chronic kidney condition or end stage renal failure, Direct Dialysis, our Medicare certified on-site hemodialysis care team, administers treatment six days a week.

The clinical care team includes: Board Certified Nephrologists, a RN Renal Manager, hemodialysis nurses, certified renal technicians, social worker, dietitian and Biomedical professionals. Our care team is dedicated to providing each patient with a personalized treatment plan.

A patient's vascular access is their lifeline and our vascular access team sustains permanent access placement thereby decreasing the potential for infection. Additionally, our 3 : 1 patient to technician ratio allows Direct Dialysis to treat high acuity patients while still providing quality care.

Communication is necessary for treatment and recovery. Daily and monthly staff meetings provide an opportunity to review treatment plans. We educate our staff with supplemental materials and informative sessions on topics such as kidney transplants, anemia management, medications, diets, fluid management and infection control.

## About Us

Crestwood Care Centre offers short term rehabilitation and long term care. We focus on individualized patient care to bridge the gap between hospital and home.

We specialize in:

- Dialysis
- Alzheimer's/Dementia
- Physical Rehabilitation
- Post-Surgical Wound Care

Crestwood Care Centre minimizes the stress associated with transferring you or your family member to multiple health care settings. We employ trained clinicians and partner with leading physician specialists to accommodate your complex care needs.

We offer a concierge staff to ensure family members are informed and familiar with treatment programs from admission to discharge.

Our Joint Commission Accreditation is a distinction bestowed on facilities exceeding the standards of Illinois Department of Public Health. This distinction enables us to accept a variety of payment sources including: HMO Insurance plans, long-term care insurance (LTC), Medicare and Medicaid.

We are conveniently located on the southwest side of Chicago in Crestwood, IL accessible by public transportation and major expressways.
