Crestwood, IL 60445

The Joint Commission's long term care standards address important functions relating to the care of residents and the management of long term care organizations. The standards are developed in consultation with long term care experts, providers, measurement experts and residents. The Joint Commission is the nation's oldest and largest standards-setting and accrediting body in health care. This distinction enables Crestwood to accept a variety of sources including: HMO Insurance plans, long-term care insurance, Medicare and Medicaid.

## What Makes Us Different

Crestwood Care Centre is a skilled nursing facility specializing in Rehabilitation, Dementia, Dialysis, Post-Surgical Wound Care, Stroke Recovery, and Mental Health Wellness. Our combination of in-house specialty programs and a supportive team of Physicians and Clinical Nurses ensure you the individualized care you deserve.

We are committed to easing your transition between hospital and home. We build relationships with health care providers to coordinate a recovery plan. Managing the technical aspects of the transition, such as patient records, Medicare and Medicaid eligibility, PPO/HMO, and Social Security, enables you and your family to focus on recovery.

## Physician Specialists

Crestwood Care Centre believes that the right specialist for each care program increases the rate of recovery. Some of our Physician Specialists include:

- Physiatrists
- Nephrologists
- Neurologists
- Internists
- Psychiatrists
- Wound Surgeon

## Clinical Nurse Liaison

Our Clinical Nurse Liaison is dedicated to promoting the highest quality of care while assisting with the seamless transition between hospital, skilled rehabilitation and long term care. Enhanced communication between healthcare professionals minimizes costs related to treatment, testing and discharge. Our Clinical Nurse Liaison will work with you to achieve a smooth transition between all levels of care, through interaction with families and healthcare providers.
