

Rehabilitation

Rehabilitation treatment at Crestwood Care Centre combines disciplines of physical, occupational and speech therapy, restorative therapy and transitional therapy to help restore abilities after an illness, injury or elective surgery. MarianJoy Rehabilitation Hospital directs these plans of care.

Our treatments have helped patients recuperate from the following:

- Heart disease or cardiac related surgery
- Joint replacement, injuries, fractures
- Lung disease and chronic respiratory problems
- Major surgeries
- Neuro-muscular disorders
- Nutrition problems and immune deficiencies
- Stroke

Amenities include:

- Newly renovated physical therapy gym
- Skilled Therapy seven days a week
- Restorative therapy available 24/7
- Registered dietician to monitor diet
- Home assessments conducted for smooth transition home

About Us

Crestwood Care Centre offers short term rehabilitation and long term care. We focus on individualized patient care to bridge the gap between hospital and home.

We specialize in:

- Dialysis
- Alzheimer's/Dementia
- Physical Rehabilitation
- Post-Surgical Wound Care

Crestwood Care Centre minimizes the stress associated with transferring you or your family member to multiple health care settings. We employ trained clinicians and partner with leading physician specialists to accommodate your complex care needs.

We offer a concierge staff to ensure family members are informed and familiar with treatment programs from admission to discharge.

Our Joint Commission Accreditation is a distinction bestowed on facilities exceeding the standards of Illinois Department of Public Health. This distinction enables us to accept a variety of payment sources including: HMO Insurance plans, long-term care insurance (LTC), Medicare and Medicaid.

We are conveniently located on the southwest side of Chicago in Crestwood, IL accessible by public transportation and major expressways.
